OCTOBER TO-DO-LIST

- Apply compost to your gardens
- Make compost
- Apply organic rich mulches to heavy feeders
- Lightly shape lavender and any dead heading
- Cut back the acacias (native fertility plants)
- Take dragon fruit cuttings and strike them
- Prune back the flowering shrubs
- Plant out new flower seedlings and give a deep water
- Lightly dig over and manure empty garden beds
- Foliar feed the orchard and potager
- Side dress vegetables with compost
- Trim back leggy looking herbs. Dry these cuttings for latter use
- Cut established asparagus
- Sow seeds
- Check over orchard for pests and possible disease
- Mulch fruit trees as needed
